Dana Theron

AUTOMATION · AI · OPERATIONS

I find the slow, manual parts of a business and build tools that fix them. Built an in-house iPad stock and barcode app for a working reception team, and Python automations for invoicing, data cleanup and reporting. Brings front-line admin and customer service experience, so the tools fit how teams actually work.

IBM AI Engineering Professional Certificate

PROJECTS

Computer Vision Scoring System · software contributor

Independent contractor team | padel courts

- Worked on the software side of a multi-camera system that tracks ball and player movement to score matches automatically.
- System uses object tracking and event detection to decide when a point is over.

Stock & Barcode App · SwiftUI / SwiftData

Virgin Active Lourensford | 2026

- iPad app to search 62 products and display point-of-sale barcodes at reception.
- Shift stock counts across store and office, with staff records, corrections and a manager logbook.
- PDF/image reports, printable barcode sheets, PIN access, bulk price updates, price history and backups.

Dana Automations · Python

Personal project | live portfolio

- Invoice reminders with a preview step before anything is sent.
- Customer-list cleanup and deduplication, and automated weekly sales reports.
- Covered by automated tests and shipped with anonymised sample data.

WORK EXPERIENCE

Admin & Customer Service Support

Virgin Active Lourensford

August 2026 – Present

- Support the manager with daily administration, promotions and member and guest service.
- Identified gaps in manual stock tracking and built an iPad app that reception staff use for product lookups and shift stock counts.

EVENT OPERATIONS

DP World Tour – International Pro-Am

- Logistics and accreditation for an international event.
- Guest and VIP coordination and stakeholder services.

ADDITIONAL EXPERIENCE

Sports Massage Therapist, Flow State Therapy (self-employed) | 2024 – Present. Client communication, treatment planning and scheduling; recovery services for endurance athletes and on-site event support at Cape Epic 2026, Two Oceans Marathon and Wines2Whales.
